Spindle / Screws:	Machine screws with colour coordinated heads for handle. 60mm - 70mm profiles (2 x M5 x 70mm and 2x M5 x 80mm screws). Please contact your lock manufacturer to obtain a split spindle that works with this handle set
Cylinder:	Euro Cylinder, 92mm PZ

#### Maintenance

For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

All dimensions are in mm and are nominal.  
Fab&Fix reserves the right to change specification without notice.  
It is the responsibility of the door manufacturer to ensure that the finished product meets any required safety and performance specification.

#### Packaging

##### Handles

Individually bagged with screws and care instructions.  
15 handles in an outer box.
