

### Continuous Keep

#### Features

- Simple, fast fit solution replacing a suite of keeps with one single length accommodating all locking points
- Offering reduced fabrication time and errors; and improves aesthetics and perceived strength
- Designed to meet the requirements of PAS 24 as part of a compliant door system
- Fully adjustable and suitable for a wide range of door profiles
- Manufactured to suit three eurogroove positions (9mm, 13mm and 16mm)
- Keep sits close to the front face of the outer frame giving unobstructed latching, clean lines and a significant strength improvement on certain systems
- All keeps have been designed to accept a variable compression adjustment of  $\pm 2\text{mm}$
- Made from high quality mild steel, passivated for exceptional corrosion resistance
- Supplied fully assembled with profile related packers attached and with end caps and dust pockets for ease of installation
- Keeps are available to suit the 2 Hook 2 Roller, 2 Hook 4 Roller, 3 Hook 2 Roller and 3 Hook 4 Roller locks

#### Technical Information

##### Corrosion resistance

Meets the requirements of BS EN 1670:2007 Grade 4 (240 hours)

##### Operation

Function tested

#### Material Specification

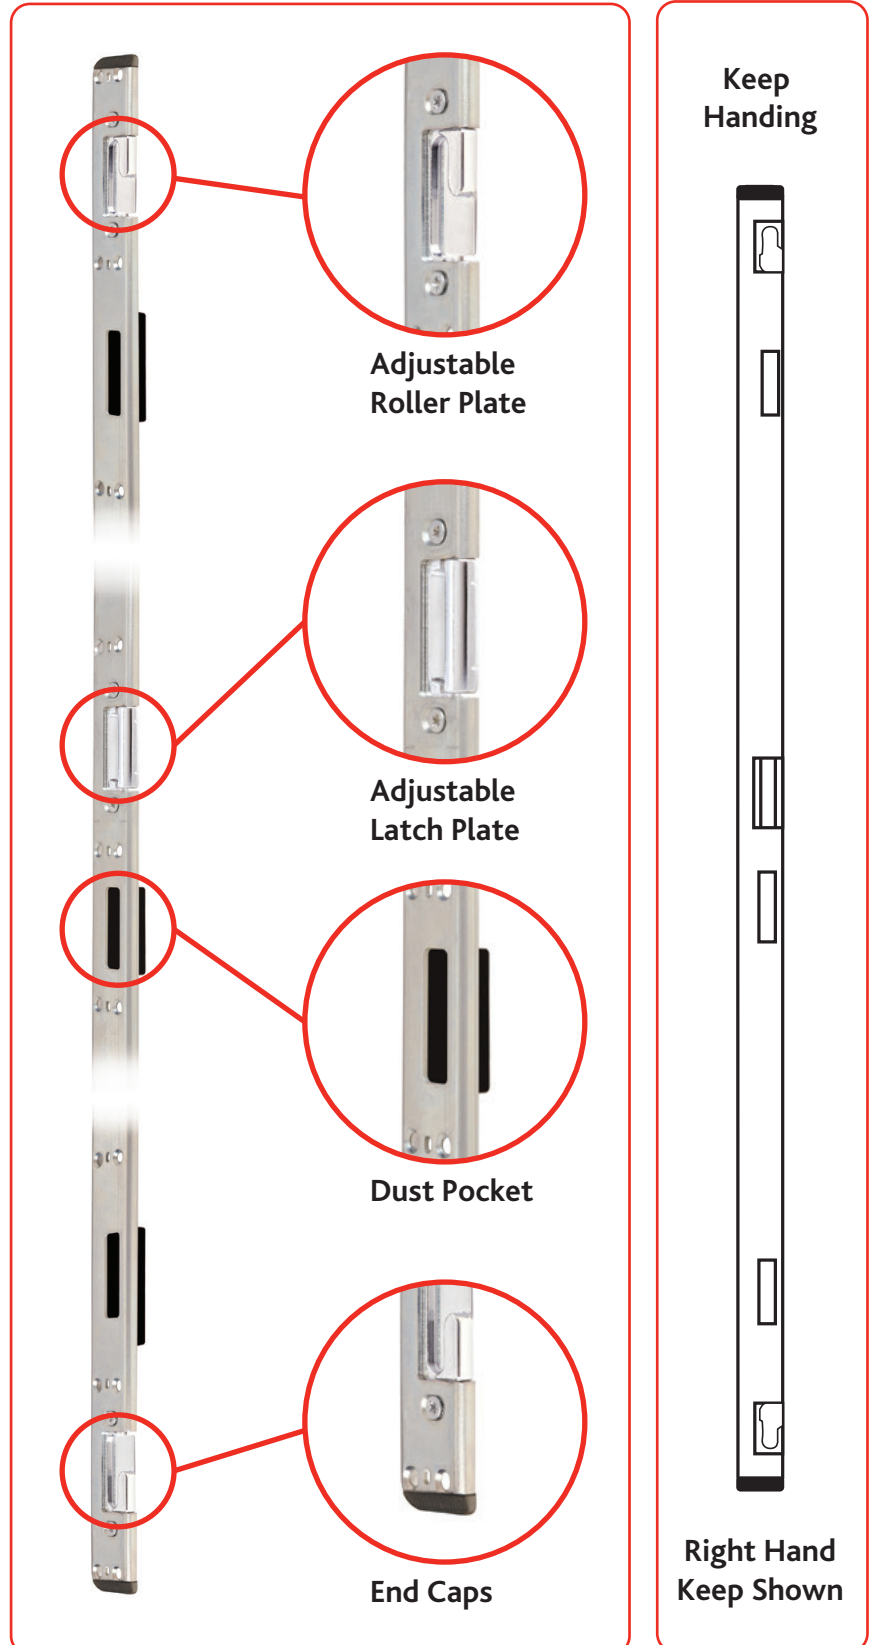

Keep bar: Steel BZP CR3 Passivate + Seal

Latch and Roller plates: Chrome Plated

#### Mechanical Specification

Adjustment:  $\pm 2\text{mm}$  Compression

Handing: Left and right handed
