<b>Performance</b>	Tested to meet the requirements of PAS 24 as part of a compliant window
Material Specification	
Handle Grip and Backplate:	High quality Zinc for all finishes
Coatings:	Hardex Chrome, Hardex Bronze, Hardex Gold, Antique Black and White

Maintenance
For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

Packaging
<b>Handles</b> Individually bagged with screws, key, cover caps and care instructions. 10 handles in an inner box, 60 handles in an outer box.

All dimensions are in mm and are nominal. We reserve the right to change specification without notice. It is the responsibility of the window manufacturer to ensure that the finished product meets any required safety and performance specification.
