

### **Padlocks and Locking Bars**

CAPES, CARACES,

# High Security Brass Combination Padlock

#### **Features**

- Brass lock case
- Molybdenum hardened shackle
- Molybdenum stainless steel used in the manufacture of missiles, air crafts and within the power industry, gives the padlocks a smooth surface finish and enhanced corrosion resistance
- Hardened steel within the shackle protects it from sawing and cutting
- Shackle is sealed for enhanced weather protection
- Keyless convenience
- Easily resettable combination
- Available in two sizes:
  - 50mm 4 dial (0-9 numbers)
  - 50mm Long Shackle 4 dial (0-9 numbers)
- 10,000 possible combinations
- For tool boxes, bicycles and other applications
- Easy to understand visual ERA security rating system. Number within the padlock symbol indicates
  the security rating and the chart demonstrates how the products security rating compares to other
  products within the range
- Allows consumers to purchase products at the most appropriate security level for the application
- · Available in secure plastic clam packaging for easy merchandising

50mm version

50mm Long Shackle version
