##### Material Specification

Cylinder Pull: High quality Zinc

Escutcheon: High quality Zinc

Coatings: Hardex Chrome, Hardex Bronze, Hardex Gold, Hardex Graphite, Hardex Rose, Antique Black, Black and White

#### Maintenance

For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

#### Packaging

##### Euro Cylinder Pull and Escutcheon

Individually boxed with screws.

20 per box.

#### Application

This product is designed for use on PVCu, composite and timber residential doors. It is not suitable for fire door applications. Any requirement to install or use this product outside its intended scope must be approved by an ERA technical representative to confirm suitability. The product application must not be misrepresented outside of the specified scope of use. The information (including images) contained in this technical data sheet must not be altered in any way without prior written permission from ERA.
