In an increasingly threatening world, security is becoming more complex. One device can't make a home safe - it takes the right combination of hardware to create that feeling of **TOTAL SECURITY.**

ERA
Total Security

Doors |

+ Multi-Point Locks

Choices of Locking Solutions

Flexible high security locking with a range of hook/ latch/ roller configurations for PVCu, Composite or Timber doors. With gearbox options to suit a 3* Fortress euro profile cylinder or the ERA Invincible 3* cylinder giving you maximum choice when selecting your PAS 024 door lock. Or why not give consumers the latest in effortless multi-point locking with the innovative **SureFire** range.

+ Hinges

Choice for PVCu/ Composite/ Timber Doors

Flag Hinges

For PVCu doors there is a choice of the Maxim double knuckle hinge; or Anchorage IS flag and HD double knuckle for a perfectly matching hinge suited to your Fab&Fix door furniture.

Butt Hinges

For Composite/Timber doors the Haven HD is a perfectly matching hinge suited to Fab&Fix door furniture. Or for 3D adjustment try the Challenger.

+ Door Handles

Your Choice of Perfectly Matching Door Handles

With a wide choice of door handles, you can add a touch of style to the door for that finishing touch. We have different styles of handles from the Classic Balmoral, to the Heritage or Architectural if you need a long backplate; and Windsor if you need a shorter backplate. With handles to suit both euro profile cylinders and Invincible cylinders you have a handle for any multi-point lock.

+ Letterplates & Furniture

Perfectly Matching Furniture

We also have a range of knockers, letterplates, numerals, letters and accessories to finish your perfectly matching door.

- Nu Mail, Architectural and Heritage Letterplates
- TS008 Kitemarked Nu Mail Shield
- Urn, Architectural and Heritage Bull Ring Knockers
- Cylinder Pulls and Escutcheons

| Windows

Extreme³ Shootbolt

Window Locks +

Flexible high security for windows with the Extreme³ centre deadbolt and duel cam locking. The non-croppable shootbolt system makes fabrication easier and quicker and heavy duty shootbolts give the window strong corner locking with increased contact into the keeps. You can also add 3D locking cam for round the corner security.

Horizon Friction Hinge

Friction Stays +

The combination of the Horizon friction stay and your choice of either Hingeguard or Security Bolt gives you a flexible PAS 024 hinge side security.

Rigorously tested to ensure maximum carrying weights guarantee durability for the life of the window. Available in either standard operation or egress/ easy clean for differing requirements.

Your Choice of Perfectly Matching Window Handles

Window Handles +

With the widest choice of window furniture, you can add the Connoisseur, Monkey Tail or Tear Drop to your window for that finishing touch.

We have handed or inline Connoisseur handles available finished in Hardex for that perfectly matching home. You can even add a matching dummy stay to a Monkey Tail or Tear Drop for that authentic Heritage window style.

Safety Locking Restrictor

Accessories +

For additional safety add the aesthetically designed, push to open Safety Locking Restrictor to the window. For a security solution where a restricted opening is required but safety is paramount.

Ideally suited to homes with families, simply insert the cable into lock body and turn the key to secure. The restrictor is classified in accordance with BS EN: 13126-1: 2011 Grade 3 Impact Resistance, for building hardware restricted devices on windows and doors and compliant child resistant locking device for windows and balcony doors in accordance with BS EN 16281: 2013.

PAS 24 & Document Q

Effective as of 1st October 2015, Document Q ensures doors and windows should be able to withstand physical attacks from casual or opportunistic burglars. Designed to help the construction industry meet the legal requirements, the guidelines cover all easily accessible doors and windows. In terms of new doors and windows, as a fabricator you must meet the requirements of PAS 24 and ERA can help.

- **ERA** provides hardware for all doors, windows and outbuildings plus the latest in Smarthome security
- **ERA** operates a UKAS accredited test laboratory that can help test and certify PAS 24 compliant doors and windows
- **ERA** offers the Total Security Guarantee, that enables differentiation of your PAS 24 hardware offer

UKAS Accredited Test House

ERA's Test House is fully UKAS accredited to put products through their paces. Fully equipped to test windows and doors to the latest industry standards; we can test casement windows, sash windows; and single or double doors to British Standards.

Our team of experienced engineers can either provide you with an indicative report or a full UKAS accredited report, depending on your requirements.

Testing available include:

- PAS 24:2016 - Enhanced Security Performance Requirements for Doorsets and Windows in the UK
- BS 6375-1 - Performance of Windows and Doors. Classification for Weathertightness

With your PAS 024 door or window security package you can also take advantage of our ERA Total Security peace of mind guarantee. The only security guarantee recognised by the Neighbourhood Watch. Giving your customers the confidence that the right hardware delivers the ultimate in home security, with a Total Security guarantee to match.

With clear benefits to you the fabricator:

- Differentiation that adds value at no extra cost
- A complete package of PAS 24 window and door hardware

Plus, ultimate peace of mind for the homeowner:

In the event of a break-in due to security hardware failure, we guarantee:

- Full replacement of the damaged window or door
- A £5,000 compensation cheque
