

Perfectly Crafted Tradition

FORGED RANGE

Developed to replicate the styling of traditional iron forged hardware, the Forged range from Fab&Fix, provides an authentic look to any door. Three traditionally styled handles and the Spire knocker have been carefully crafted to create the look of aged furniture.

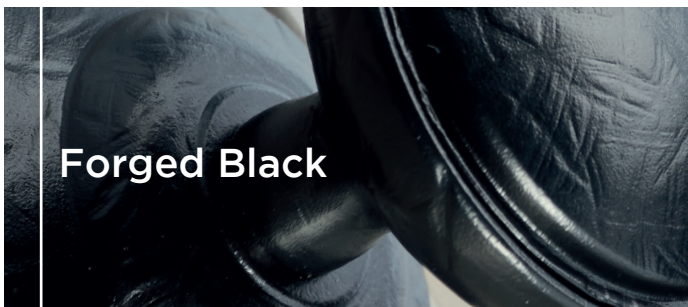

Noble

Sculptured

Monkey Tail

Forged Black is a tough, durable, low maintenance finish, designed to replicate the look and feel of period style ironmongery.

With a matt black base interlaced with a hammered pattern to provide a beautiful textured surface finish adding interest to any new door.

Hardex Pewter creates a look of aged pewter but utilises the strength and resilience of the Hardex coating.

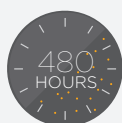

Using innovative manufacturing methods ensures a repeatable finish to give the look of traditionally forged furniture that is low maintenance.

Beautifully finished furniture for windows or doors
